

THE BUILDING BRIEF 2.0

FEBRUARY 2019

VOLUME LX

DON'T LET WINTER BE THE ENEMY

February has arrived which means we're in the heart of winter; but just because the temperature has dropped and there may be snow on the ground, doesn't mean our work stops. We continue to build custom decks/porches all year 'round. Don't wait until the weather gets warmer to get started on your backyard vacation destination.

Build your outdoor space now so you can enjoy it when Spring arrives. Just think, you can be the first to throw this season's BBQ party!

No one wants to be cold. Heat your porch this winter with a custom fireplace. Not only do fireplaces add heat to your space but an elegant, cozy feel, as well.

Choose between a crackling wood or convenient gas fireplace.

Imagine relaxing in front of a roaring fire as snow falls around you. Talk to your Design Consultant about adding an outdoor fireplace to your new space now so you're not left out in the cold this winter.

MONTHLY SPECIAL

Homeowners who sign in February will receive a special deal on Trex newest board – Enhance Tropical collection.

Visit Trex.com to see the new board.

FLASH FORWARD

Homeowners who sign in March will receive special discount pricing on Trex low-voltage deck lighting. Discount includes post cap lights, step riser lights, dome post lights and in-deck dot lights.

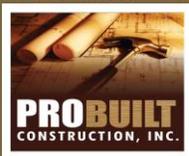

Project of the Month

"ProBUILT delivered a first-class product in every respect; professional, high-quality, on-time and a terrific outcome. Thanks, ProBUILT!"

– Mark Mills, Chevy Chase

A custom radius deck overlooking the glistening pool is the perfect addition to this welcoming space. This size is ideal for an intimate family gathering but if you like to entertain larger parties, walk the radius steps down to the patio.
