

# THE BUILDING BRIEF 2.0

JULY 2019

VOLUME LLXV

## TIME TO BREAK OUT THE BBQ

No deck or patio is complete without a grill. How else are you going to enjoy that fantastic 4<sup>th</sup> of July BBQ with family and friends? What better way to show off your grilling skills than on a new built-in island? Not only does an outdoor kitchen serve as a functional feature, it enhances the beauty and uniqueness of your outdoor living space.

You can customize your island with a charcoal grill, gas grill, stove top, pizza oven, smoker, refrigerator, cold-water sink & top bar. Match the stone to your home, or patio area, and choose your granite. With an outdoor kitchen, your outdoor space will be the place-to-be this summer.

## MONTHLY SPECIAL

July clients will be offered 10% off of Trex rail upgrade with the mention of this Newsletter. This offer includes white rails with round black aluminum balusters upgrade. This offer does not include the cocktail rail upgrade or the "two-tone" rail upgrade for Trex Transcend colored rails.

Happy 4th of July!

## FLASH FORWARD

August clients will be offered a special End of Summer discount to schedule work before the end of this year. Don't let another year past without planning your custom outdoor space.

We hope to work with you to bring your outdoor living space to life!

## Project of the Month

"We are very happy with our ProBuilt deck!"

– Joe Kumor, Elkridge

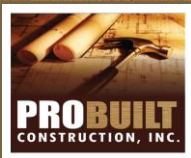

This space was a deck redo. Being over 15 years old, this deck was in desperate need of a makeover. We installed new Trex Transcend decking features a decorative inlay in the center that draws your eye the moment you step outside. In addition with Transcend Tree House colored rails, this client's view of his backyard is never obstructed.

We are so happy to transform a sad, old deck into a new beautiful space for our clients to enjoy. Let us renovate your space!
